

## Paris 1 to 1 Scale Euro Truck Simulator Mod

### User Manual

#### Dedication

I love Paris, and this mod is dedicated to the city and its people.

#### Disclaimers

- No money is made from this mod. All copyright for the software remains with SCS Software, and the copyright for art, images and adverts depicted remains with the original owners. All art, images and adverts have been found in the public domain.
- Road directions may differ significantly from the reality, e.g. the number of one way options available are limited in the game map creator compared with reality. The mod is not suitable for use as a Paris navigation aid, or for driver training. The mod is for entertainment purposes only.

#### System Requirements

- Euro Truck Simulator 2
- DLCs Vive La France, Going East, Italia, Scandinavia, Beyond the Baltic Sea, Road to the Black Sea, Iberia.

#### Installation

- Create a folder called "mod" in your Documents/Euro Truck Simulator 2/mod, if you don't already have one.
- Copy the Paris121.scs file into it.
- In your Documents/Euro Truck Simulator 2 folder, open the config.cfg text file.
  - o Find the line "uset r\_buffer\_page\_size" and set the value to 30.
  - o Find the line "uset g\_traffic" and set the value to 9.0
  - o Save the config file.
- Launch the game
- Click on the mod manager icon and activate the Paris121 mod
- Create a new driver profile
- On the profile creation, choose the playing module Parisv2.mdb
- You are ready to begin.

#### Other mods

- Do not use the mod in combination with any real-advert mods – Paris121 already overwrites the default adverts with authentic ones, many of which are specific to Paris.

#### Choosing a home location

- Paris 121 uses metro stations, and sometimes the RER suburban rail stations as delivery locations, rather than the conventional cities from ETS2. Only a limited number of locations have both a garage and a company, where you can choose a home base. These are:
  - o Argentine
  - o La Courneuve
  - o La Fourche
  - o La Motte Piquet
  - o Miromesnil

- Passy
- Porte St Ouen
- Simplon
- StAugustin
- Varenne
- Stade de France - Saint Denis
- Saint Denis - Porte de Paris
- Recommended are the locations on the “spur” at the top of the map extending towards Charles de Gaulle airport, as this gives an experience closer to that of most new arrivals to Paris. These are also easier to find than locations in the dense central area.

### **FOR THE ALPHA, I RECOMMEND LA COURNEUVE (NORTHERN MOST LOCATION)**

#### Graphical Issues

Euro Truck Simulator 2’s map is configured for optimum player performance on an average PC, and not for the ultra-dense roads in Paris 121. The graphics engine has a maximum number of objects that can be rendered, and in zones with dense numbers of objects exceeding the maximum, the player image will flicker and vanish, as depicted below:

#### Wipeouts driving south from Porte de la Chapelle

The objects remain present, and trucks will not fall through the floor, however the vanishing detracts from the immersive experience. Moving to external view and looking down will reduce the issue (i.e. a viewing angle with fewer distant objects). Drivers wishing to avoid the vanishing altogether should keep clear of a 1.5km radius around Montmartre, shown here:

## Navigation

The truck simulator satnav is not configured for dense roads – it will frequently attempt to bypass traffic lights on main roads by using minimum sized back roads. Drivers are recommended to check the map frequently and keep to the wider roads.

The real Paris has many roads which are not suitable for trucks, and the mod is the same. It is possible to get stuck. Drivers need to be sensible and plan the easiest access to delivery locations.

## Credits

All images reproduced are from public domain, except for adverts, where hopefully the companies will appreciate the free publicity.
