REQUIREMENTS

- **Alexander Blade's ScriptHookRDR2**

INSTALLATION INSTRUCTIONS

- Install Alexander Blade's ScriptHookRDR2
- Extract **Reduced Blood Effects.asi** in to your game's root directory
- Done!

DESCRIPTION

This mod reduces a lot of the wound effects when peds get shot. Even though this is a step away from realism, a lot of people are sensitive to body injuries and the realistic blood effects of this game. This makes it harder for them to enjoy this amazing game. Here I need to mention that the mod isn't completed yet. Bone detachment is still not removed from the game but the most essential blood effects have been removed.

CREDITS

- The RDR2 research community: **femga**, **alloc8or**
- **HolyRoller** for requesting the mod
