Then we type save\_format in Search section and press find next button. And we change the place from "1" to "2.. And save and leave.

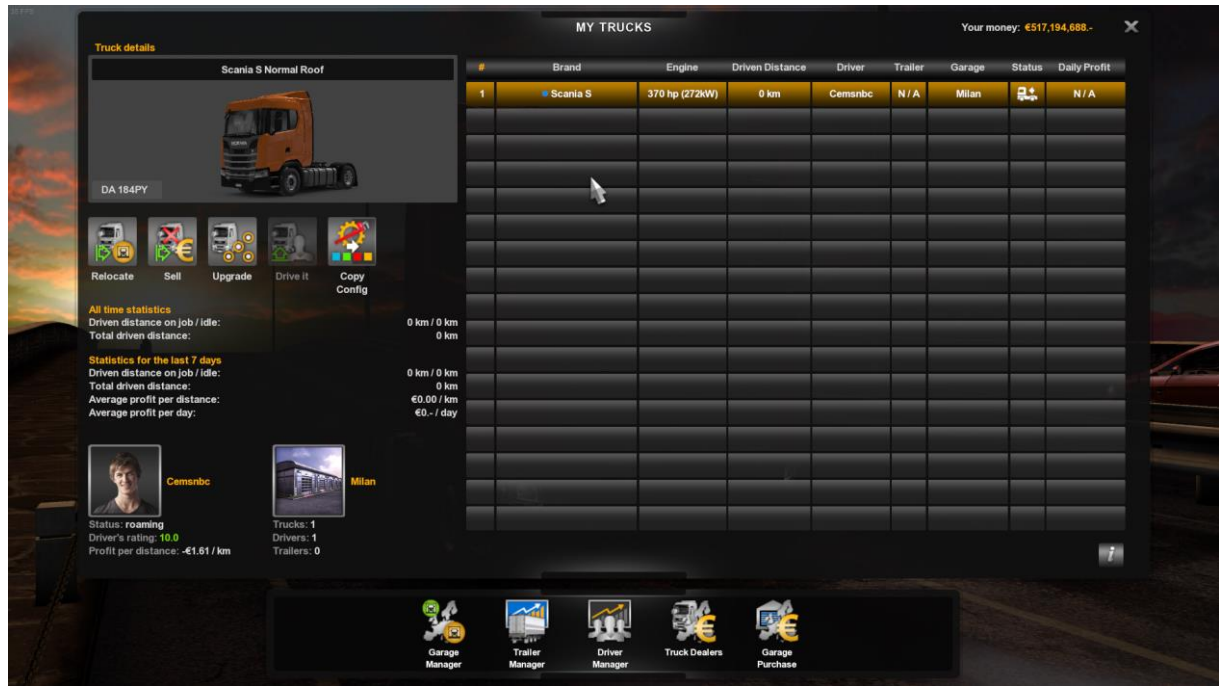

Then we enter the game. Click the Customize Truck button in the Truck Purchase Menu and fill all the glass slots in the cabin.

we buy and use the truck

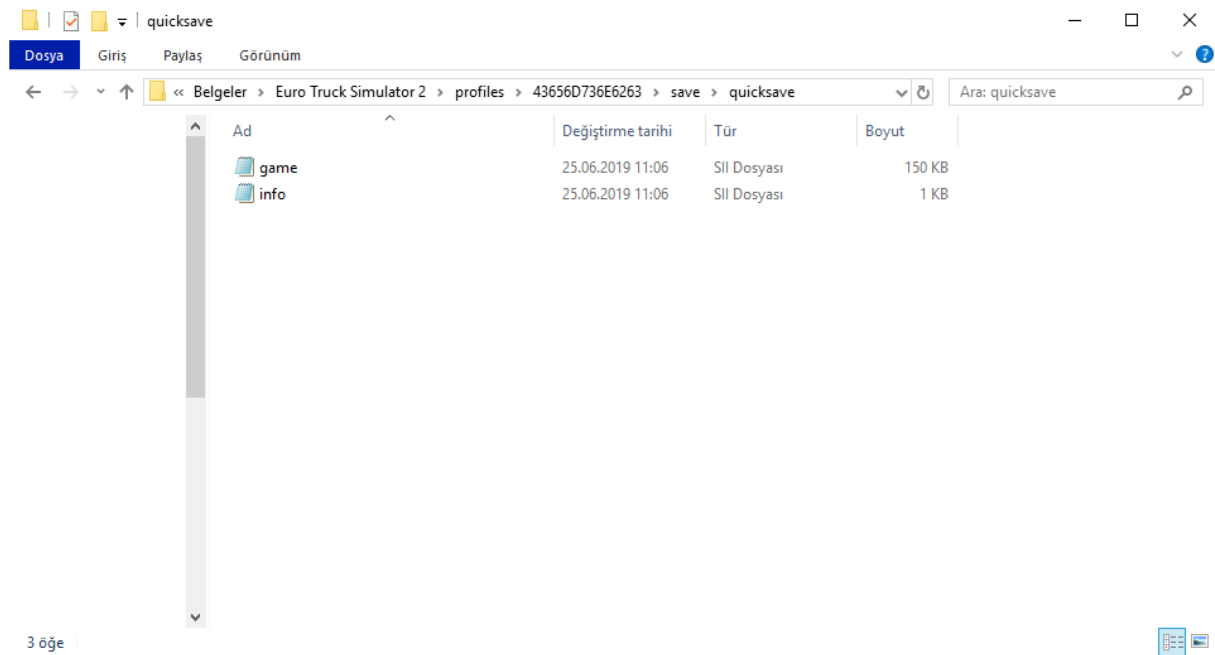

And then we press the quick save button. But make sure you don't have any other trucks.

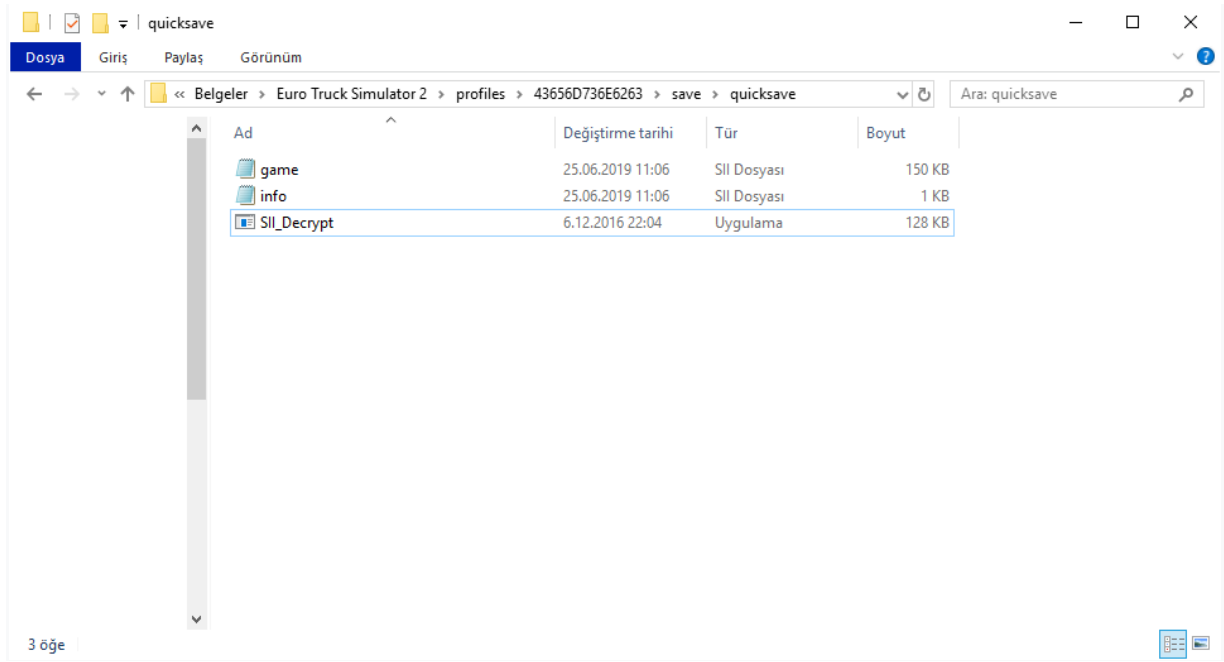

After quick save

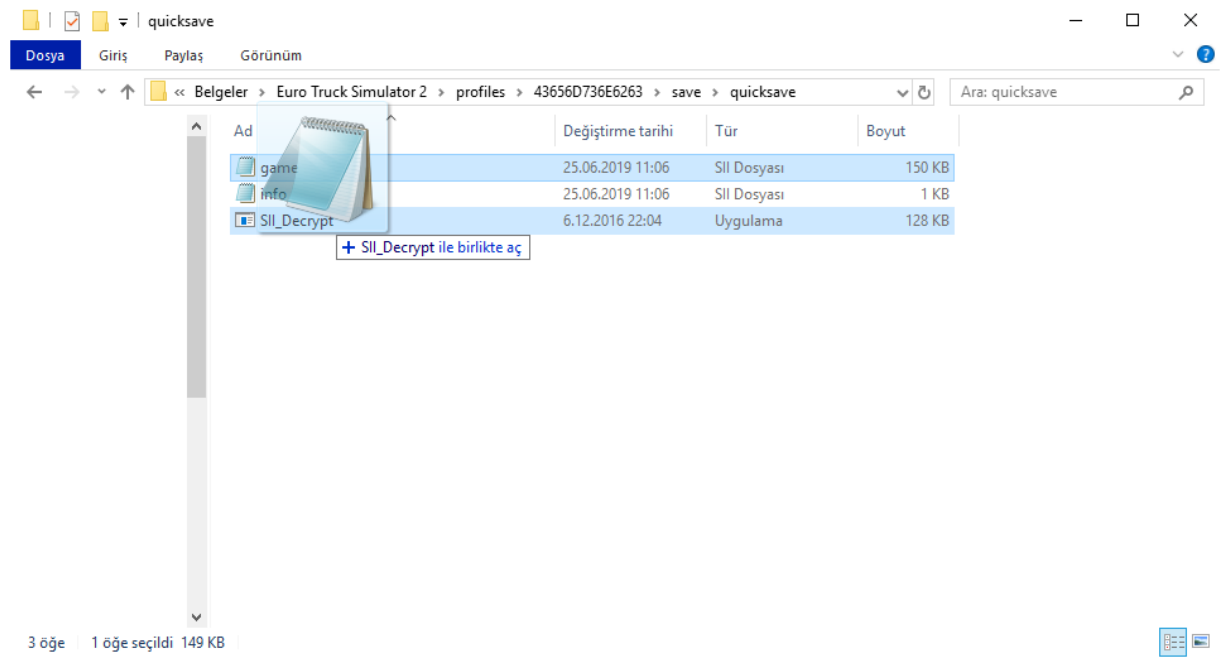

Go to \Documents\Euro Truck Simulator 2\profiles\xxxxxxxxxxxxxxx\save\quicksave

Put SII\_Decrypt in this Folder

Then drag and drop the game.sii file onto the SII\_decrypt application.

Open the game.sii document and click on Find  
addon\_hookup  
and press Find.

```
game - Not Defteri

Then come to the game come to the download section and select Quick Save.

and happy ending

This tactic also works in Multiplayer. Other players can see the flags.
